

Correction Regarding Unauthorized Use of Chambre des Députés Logo

It has come to my attention that the Chambre des Députés has issued a statement regarding the unauthorized use of its official logo on certain flyers associated with petition 3231. The official statement can be found here: <https://www.chd.lu/fr/utilisation-non-autorisee-logo-Chambre>.

First and foremost, I would like to acknowledge that this is indeed a mistake. The inclusion of the logo was unintentional oversight, and we deeply regret the error. As soon as I was made aware of the issue, I took immediate corrective action.

As the main petitioner, I would like to clarify the steps I have taken to address this matter:

1. I have contacted all collectives and organizers who may have published or planned to publish the logo on their social media, requesting its immediate replacement.
2. I have reached out to relevant activists and initiatives (to the extent possible) to ensure they use a corrected flyer without the logo and discard any previous versions.
3. I will send a letter to the Chambre des Députés offering my support should they require any further action on my part to rectify this issue.

I sincerely appreciate the cooperation and understanding of all parties involved as we work to resolve this matter responsibly.

Best regards,
Dalia Khader (petitioner)
